CleanLight Air

Air disinfection system

The CleanLight Air is a 100% safe application to clean the air from:
dust, spores, fungi, viruses and bacteria.

The strong 60Watt UV lamp is completely concealed so that no UV light is released.
This allows the CleanLight Air to be hung in public areas and workshops.
Also, the ionizer and the air circulation are silent so that it does not distract or irritate.
Also people with asthma problems or other chronic respiratory diseases
will benefit greatly from the CleanLight Air application.

The CleanLight Air is an air disinfection system with:

- Air circulation
- An ioniser
- An air filter
- A UV-C cleaning light 60Watt

Benefits CleanLight Air:

- Kills spores, fungi, viruses and bacteria in the air
- Disinfects and cleans the air up to 90% in closed areas
- Low-noise
- Suitable for rooms up to 100m3, per unit
- Throughput per hour 100m3
- Diseases can be prevented
- Easy installation and maintenance
- 8000 operating hours = 1x per year lamp replacement
- Deactivates airborne microorganisms
- Has a 3M filter for dust particles and odours
