Hygiene entrances

Quality assurance, prevention of risk, hygiene process quality

As CannaTechnics we can deliver all kinds of hygiene entrances. In this leaflet you will find an overview of the entrances who are best suited to use in and around a greenhouse. We can deliver all types of hygiene entrances so please contact us if you are interested or have specific steps to take and wants and needs for a hygiene entrance.

DZW-HDT

Sole cleaning and hand disinfection

The DZW-HDT disinfects the hands and cleans the soles. The rotating brushes are automatically humidified. With sensors the hand disinfection is regulated. Above and underneath the hand, spray nozzles ensure atomization with disinfectant. The turnstile will be released after the disinfecting of the persons hand. Now, the person can walk to the next room.

Benefits

- Easy-to-clean
- Ergonomic design
- 4-year warranty on brushes
- Adjustable two-sided chemical dosing
- Chemical level indicator

Options

- Built-in models
- Can be connected to a centralized chemical supply
- Person and time registration

Cleaning stations

Keep your greenhouse free of bacteria's and diseases.

Hygiene control Highline

The Hygiene control Highline is the basic model. This model is suited for cleaning the hands of all employees. The Hygiene control Highline has a turnstile to make sure the staff will not walk past it without cleaning their hands.

General Features

- Stainless steel construction.
- Heavy duty construction.
- Special roll-bar revolving door (one way).
- Two separate holes for sanitization of both hands.
- Possibilities to adjust alcohol flush.
- Top latch with key for easy refilling and maintenance.
- Five litre alcohol container. Alcohol level indicator.
- Green/red light.
- Possibility of working in two ways (exit free).
- Pedestal version. 1 Ph 220 V 50 Hz.

Hygiene control Highline +

The Hygiene control Highline + is the extended version of the Hygiene control Highline. This unit has the same features, only adds a foot bath. This way the cleanser does not drip on the ground. And the staff will walk over the cleanser.

General Features

- Stainless steel construction.
- Heavy duty construction.
- Special roll-bar revolving door (one way).
- Two separate holes for sanitization of both hands.
- Possibilities to adjust alcohol flush.
- Top latch with key for easy refilling and maintenance.
- Five litre alcohol container.
- Green/red light.
- Foot bath for dripping.
- No slipping grating. Overflow System.
- Grating foldable for easy cleaning possibility of working in two ways (exit free). 1 Ph 220 V 50 Hz.
