Insect lights

Keeping your greenhouse clean of unwanted insects.

It is well known that light attracts insects. since insects can be a pest in the greenhouse and can carry diseases, they must be controlled. Insect light can be a good solution. This attracts the insects after which they are killed by a high voltage of electricity. The dead insects are often collected in a container under the lamp so that it does not cause pollution. In this way, flying insects in the greenhouse are quickly and effectively controlled.

PlusZap 16 Watt 40 m2

This is the second generation PlusZap. The PlusZap is available in a range in white, stainless steel or aluminium finish and can be mounted on the wall or ceiling, but can also be placed on a table / worktop.
The UV lamps have efficient light output for a wide range and great fly attraction. The lamps are quick and easy to replace.
Independently tested and certified according to RoHS and all relevant European standards.

Specifications

- Description: PlusZap Stainless Steel 16 Watt.
- Range: 40 m2.
- Application area: storage, warehouse, industry.
- Weight: 3.0 kg.
- Dimensions: 262 x 365 x 130 mm.
- Included: 2x PlusLamp TVX8-12.

PlusZap 30 Watt 80 m²

This is the second generation PlusZap. The PlusZap is available in a range in white, stainless steel or aluminium finish and can be mounted on the wall or ceiling, but can also be placed on a table / worktop.
The UV lamps have an efficient light output for a wide range and great attraction to flies. The lamps are quick and easy to replace.
Independently tested and certified according to RoHS and all relevant European standards.

Specifications

- Description: PlusZap Stainless Steel 30 Watt.
- Range: 80 m2.
- Application area: storage, warehouse, industry.
- Weight 3.5 kg.
- Dimensions 262 x 514 x 130 mm.
- Included 2x PlusLamp TVX15-18.

Excalibur Industrial 40Watt 120m²

The Excalibur Industrial™ fly lights are equipped with a deep metal collection tray, a large removable triangular grid and are available as a 40 or 80 Watt stainless steel unit.
Due to the solid stainless steel design, these fly lamps are suitable for use in heavier industrial environments.

Advantages

- For wall or ceiling mounting.
- Included tools for easy maintenance.
- Quick and easy to clean.
- Full stainless steel construction (AISI304).
- Independently tested and certified according to RoHS and all relevant European standards.

Specifications

- Description: Excalibur Industrial Stainless Steel 40 Watt.
- Range: 120 m2.
- Application area: Food processing industry.
- Weight: 10.5 kg.
- Dimensions: 350 x 655 x 170 mm.
- Included: 2x Philips TPX18-24 Philips.

Excalibur Commercial 80 Watt 240 m²

The Excalibur Commercial has been developed in consultation with leading companies in the field of pest control.
This fly light is designed for quick and easy maintenance. The metal construction is extremely solid and only high-quality components are used.

Advantages

- Wall mounting, ceiling mounting or free-standing.
- Easy access to components.
- Removable grid for easy cleaning.
- Reliable 3750Volt transformer.
- Independently tested and certified according to RoHS and relevant European standards.

Specifications

- Description: Excalibur Commercial Stainless Steel 80 Watt.
- Range: 240 m2.
- Application area: Industrial food processing.
- IPX4.
- Weight: 6,5 kg.
- Dimensions: 270 x 690 x 155 mm.
- Included: 2x Philips TPX36-24S.
