Chalk pump

Solid and reliable.

These chalk pumps are specially designed to pump chalk products and coatings. The capacity is matched to our chalk machines. Carefully selected materials prevent premature wear.
This chalk pump has a mixing tank of 1,600 litres, more than sufficient for mixing one hectare of spray liquid. Available with an electric drive or a fuel engine.

Specifications

- 1,600 Litre polyester mixing tank, sufficient for 1 hectare greenhouse.
- Large hinged lid, for spill-free filling and easy cleaning.
- Solid stainless steel stirrer, prevents the spray liquid from sinking.
- Hose reel with 1/2" high pressure hose.
- Comet diaphragm pump, delivers 40 liter/min at 50 bar.
- Powder coated frame, easy to clean.

Pump trailer

Saves time.

These chalk pumps are specially designed to pump chalk products and coatings. The capacity is geared to use with our chalk machines. Carefully selected materials prevent premature wear.
This pump trailer has two 1,000 litre containers, so you no longer have to stop spraying to refill the mixing container. Available with an electric, hydraulic or tractor drive.

Specifications

- 2 x 1,000 Litre polyester mixing bowl, no need to stop spraying to refill the mixing bowl.
- Large hinged lid, for spill-free filling and easy cleaning.
- Solid stainless steel stirrer in both containers, prevents the spray liquid from sinking.
- Hose reel with 1/2" high pressure hose.
- Comet diaphragm pump, delivers 40 liter/min at 50 bar.
- Powder coated frame, easy to clean.
- Mobile undercarriage, with two large all terrain wheels, with universal drawbar eye and nose wheel.

Pump trailer special

Versatile chalk pump trailer.

These chalk pumps are specially designed to pump chalk products and coatings. The capacity is matched to our chalk machines. Carefully selected materials prevent premature wear.
This special pump trailer has a mixing tank of 1,600 litres, sufficient for 1 hectare of spray liquid. This powerful pump trailer works perfectly with the Top Cleaner Poly greenhouse deck cleaner. It can be used for both washing and coating. Different types of hoses fit on it, which makes the pump trailer extra versatile. Available with an electric, hydraulic or tractor drive.

Specifications

- 1,600 l polyester mixing tank, sufficient for 1 hectare greenhouse.
- Large hinged lid, for spill-free filling and easy cleaning.
- Solid stainless steel stirrer, prevents the spray liquid from sinking.
- Hose reel with 1/2" high pressure hose.
- Comet diaphragm pump, delivers 40 l/min at 50 bar.
- Powder coated frame, easy to clean.
- Undercarriage, with two large all terrain wheels, with universal drawbar eye and nose wheel.
- Hydraulic hose reel, capacity: 300 m 5/8'' hose.

Hose reel

Easily fits 300meters of hose.

If a standard hose reel is not large or powerful enough, the hydraulic hose reel is an easy solution. It easily fits 300 metres of 5/8'' hose. Works perfectly with the top cleaner poly greenhouse deck cleaner.
At the front of the frame of the hydraulic hose reel, a high pressure water pump and a stainless steel float bowl can be added if desired.

Specifications

- Powerful hydraulic drive.
- Drum capacity: 300 m 5/8” hose.
- Undercarriage with robust wheels.
- Powder coated frame, easy to clean.
- Tie rod.
- Stamps.
- High-pressure pump and float bowl: optional.
