Skyman-Offrail

Simple in use and maintenance.

The SKYMAN OFF-RAIL electric cultivation trolley is developed for growers without a pipe-rail system in the greenhouse for pipe-rail trolleys. The SKYMAN OFF-RAIL can be manually set on different heights. Due to its unique "hip-steering" mechanism, the driver has its hand free to work on the crop. It is also possible to steer with your hands instead of with your hips. Thanks to its simple design, the SKYMAN OFF-RAIL is easy to use and to maintain and it's attractive to buy.

Advantages:

- Strong motor.
- Low platform.
- Hygienic.
- Simple controls.
- Light and easily manoeuvrable.
- Low costs.
- Hands free driving.

Specifications

Drive:	0,37kW
Speed:	0-40 m/min
Length frame:	1780mm
Batteries:	24V 105Ah
Battery gauge:	Optional
Tilt alarm:	Yes
Minimum height:	590mm
Maximum height:	1530mm
Turn radius:	7400mm
Wheels Air tires:	Ø300mm

Options

- Battery charger trolley for 4 of 6 chargers.
- Battery charger 230V 50Hz.
- Battery charger Water- / shock proof 100-240VAC 50-60Hz.
- 24V connector for rope machine.
- Aluminium tool box.
- Battery gauge.
- Kit for 2990mm height.
- Manual lifting wheels for side-movement.
